SCOPE OF WORK

- 1) The asset Valuer shall carry out detailed valuation of the property, taking into consideration the following aspects-
 - a) **Realizable value based on covenants:** The realizable market value of the property may be determined, assuming a non-distress sale scenario. The value may be assessed after taking into account any defects/ restrictions/ encumbrances on the use/ lease/ sublease/ sales etc. of the properties or in the title deeds, etc.
 - b) **Nature of ownership rights:** Conditions of lease including conditions for its transfer, lease rent and provisions for revision, total period of lease, remaining period of lease, conditions for renewals etc. may be considered while valuing the property apart from encumbrances, if any and land usage restrictions.
 - c) **Capital works-in-progress:** Capital works-in-progress shall be taken into consideration for valuation of assets.
- 2) The Valuer may carry out the valuation based on various appropriate methodologies. Detailed calculations, with supporting documentation for the assumptions made shall be given in the report. For e.g., if the Sales Comparison Approach is used, then the report should preferably mention the actual instances of sales along with sale prices and month of sale in the report. Further, due adjustment to account for any difference in size, shape, location, land use and other features may be done. In case valuation is done by Discounted Cash Flow for a Hypothetical Developmental Scheme, then the detailed calculations along with reasons for assumptions made towards Debt-Equity ratio, WACC, Discounting rate etc. may be provided in the report.
- 3) In some land parcels, there may be a proposal for future division of plot. For such cases, the area of entire plot and the area of the portion to be alienated later has been indicated in this document. The selected valuer shall have to do valuation for the entire land parcel and also for the portion proposed to be alienated.
- 4) Valuation shall be done both for the existing land use as well as for the permissible land use as per master plan.
- 5) In addition to the above, the report shall invariably mention the following-
 - a) Permissible land use at the location of property as per master plan.
 - b) Prevailing Guideline rates for the existing land use of the property along with relevant circular/ print of relevant website.
 - c) The depreciated value of buildings/structures, calculated on the basis of CPWD guidelines.
- 6) If the Valuer is of the opinion that the depreciated value of buildings/structures, calculated on the basis of CPWD guidelines do not indicate the realistic market value of buildings/structures, the same may be specifically stated in the report and value of buildings/structures in the opinion of Valuer may also be provided with justification. If value of buildings is recommended as NIL, then the report shall specifically mention so along with reasons.

- 7) It shall be a term of engagement that MTNL may seek additional details, clarifications, comments or advice from the Independent Valuer regarding the valuation of the said property upto a period of 1½ (one and a half) year from the date of submission of valuation report and the Valuer shall provide the same to MTNL without any extra fees.
- 8) Sub-contracting of the assignment will not be allowed. The appointed Valuer shall be solely responsible for all the required final deliverables.
- 9) The provisions regarding valuation, contained in the Companies (Registered Valuers and Valuation) Rules, 2017, notified by the Ministry of Corporate Affairs, Government of India, with up-to-date amendments shall also be complied with by the Valuer.
